Methyl PROXITOL

Product Code: U5141
Region: Global
Product Category: Propylene Glycol Ethers
CAS Registry Number: 107-98-2
Synonym(s): 1-methoxy-2-propanol, MePROX, MP, PM

Description: Methyl PROXITOL is a colourless, hygroscopic solvent with a volatility, viscosity and solvent power similar to those of ethylene oxide-based glycol ethers.

Typical Properties

---

((#) In the Antoine temperature range, the vapor pressure P (kPa) at temperature T (°C) can be calculated by means of the Antoine equation: \( \log P = A - \frac{B}{T+C} \)

N.B: For routine quality control local test methods may be applied. Such methods have been validated against those mentioned in this datasheet.
Quality
Methyl PROXITOL does not contain detectable quantities of polycyclic aromatics, heavy metals or chlorinated compounds.

Hazard Information
For detailed Hazard Information please refer to the Safety Data Sheet on www.shell.com/chemicals.

Storage Handling
Provided proper storage and handling precautions are taken we would expect Methyl PROXITOL to be technically stable for at least 12 months. For detailed advice on Storage and Handling please refer to the Safety Data Sheet on www.shell.com/chemicals.

Trademark
PROXITOL is a Shell Trademark.

All products purchased or supplied by Shell chemicals companies are subject to the terms and conditions set out in the contract, order confirmation and/or bill of lading. All other information supplied by Shell chemicals companies, including that herein, is considered accurate but is furnished upon the express condition that the customer shall make its own assessment to determine a product’s suitability for a particular purpose. Except as may be set forth in the applicable contract, order confirmation and/or bill of lading, Shell chemicals companies make no warranty, express or implied, including regarding any information supplied or the data upon which it is based or the results to be obtained from the use of such products or information, or concerning product, whether of satisfactory quality, merchantability, fitness for any particular purpose or otherwise, or with respect to intellectual property infringement as a result of use of information or products, and none shall be implied.

The expression ‘Shell Chemicals’ refers to the companies of the Royal Dutch/Shell Group that are engaged in chemical businesses. Each of the companies that make up the Royal Dutch/Shell Group of companies is an independent entity and has its own separate identity.
