4. Live Saving Rules

From July 1, 2009 Shell's Life-Saving Rules have been fully enforced.

Shell's Life-Saving Rules set out clear and simple "do's and don'ts" covering activities with the highest potential safety risk. They are not new. Most people comply with them every day – but there are still breaches taking place. The Life-Saving Rules help to make sure that rules are followed and people are protected.

Compliance with the Life Saving Rules is mandatory, and the Life Saving Rules are applicable to all operations under Shell's operational and / or governance control. Each reported non-compliance will be investigated. And failure to comply will result in disciplinary action, up to and including termination of employment for Shell employees, or for employees of contractors or sub-contractors, removal from the site and disqualification from future Shell work. Supervisors are held accountable to communicate and ensure compliance.

If you choose to break the rules, You choose not to work for Shell.

The 12 Life-Saving Rules are:

- Work with a valid work permit when required
- Conduct gas tests when required
- Verify isolation before work begins and use the specified life protecting equipment
- Obtain authorisation before entering a confined space
- Obtain authorisation before overriding or disabling safety critical equipment
- Protect yourself against a fall when working at height
- Do not walk under a suspended load
- Do not smoke outside designated smoking areas
- No alcohol or drugs while working or driving
- While driving, do not use your phone and do not exceed speed limits
- Wear your seat belt
- Follow prescribed Journey Management Plan
