Terms & conditions
for the purchase of goods and services
At Shell, we consider good business to be about relationships, and trust to be at the heart of good business relationships and practice. The people and companies you trust and have good working relationships with are those you do the best business with. A contract represents the formal basis for trust between the parties who sign it. For all parties to commit to it, a contract must be an accurate account of the agreement reached; and, for it to be read and understood, it must be written in terms that are accessible and familiar. This document aims to honour that trust by laying out its terms and conditions as clearly and unambiguously as possible.

shell.com/termsandconditions

These terms and conditions apply to the contract between COMPANY and CONTRACTOR. This contract may be in the form of a purchase order or a work statement (the contract). These terms and conditions are binding between COMPANY and CONTRACTOR; they supersede and replace any CONTRACTOR terms and conditions or previous contracts for any goods or services (defined as scope in the contract). If the parties to this contract agree any special terms, those terms should be documented and added to the purchase order terms – or a further contract should be drawn up containing those special terms. Where these terms and conditions are attached to or incorporated in a contract issued under an existing contract, the terms and conditions of that existing contract will overrule those of the later contract.

COMPANY would need to approve any alteration to this standard payment term in advance and in writing.

These steps include turning over all documentation for scope and software which was to be supplied in connection with the contract.

15.5 Compensation in the event of termination
(a) If COMPANY terminates the contract or part of scope for cause, COMPANY will determine and pay the amounts (minus any valid deductions) owed to CONTRACTOR for scope properly performed in accordance with the contract.
