Disclaimer: Information is accurate as of 31 May 2023. Every effort will be made to maintain availability of the product, but note that the product and pack in each port are subject to availability. Shell Marine Products cannot guarantee that any such product will be available at any specific time.

¹Based on results of field trials conducted in collaboration with MAN Energy Solutions (MAN ES) in which Shell Alexia 40 XC oil was tested against a Category II BN100 cylinder oil (Vessel Mingzhou); based on testing procedures for Category II cylinder oils by MAN ES, approved Category II cylinder oils have a cleaning ability equal to or better than a classical BN 100 cylinder oil.
