SHELL INTERNATIONAL FINANCE B.V.

DIRECTORS' INTERIM REPORT

Review of activities

Shell International Finance B.V. (also referred to as the “Company”) is one of the entities within the “Shell Group” (also referred to as “Shell”). In this context Shell Group companies are companies in which Royal Dutch Shell plc, either directly or indirectly, has control, either through a majority of the voting rights or the right to exercise a controlling influence or to obtain the majority of the benefits and be exposed to the majority of the risks. Companies in which Shell Group Companies have significant influence but not control are classified as “Associated companies”. Royal Dutch Shell plc, a company incorporated in England and Wales, is known as the “Ultimate Parent Company” of the Shell Group.

The principal activity of the Company is to provide funding to other members of the Shell Group.

The Company obtains funding by issuing debt from two commercial paper programmes (together a limit of US \$20.0 billion), a euro medium term note programme (unlimited) and a US universal shelf registration (unlimited). The Company also has in place committed bank facilities (US \$17.2 billion and EUR4.4 billion). Royal Dutch Shell plc guarantees all debt issuance programmes.

The Company’s financing requirements for the period ending 30 June 2020 were met by the issuance of USD 3.75 billion and EUR 5.0 billion of long-term debt, maturing between 2024 and 2050 as well as net issuance of commercial papers for USD 4.1 billion

The Company has repaid long term debts of US \$4.0 billion that matured during 2020.

All debt is passed on to Group companies on identical terms, which limits the interest rate or foreign exchange risk to the Company.

The Company’s financial result for the period was a loss of US \$331,000 (6 months ended 30 June 2019: a profit of US \$67,000). This was primarily due to differences on foreign exchange relating to intra-group current accounts not denominated in US Dollars.

The Company employs no staff. This is not expected to change for the remainder of 2020.

No significant change in the business of the Company has taken place during the period or is expected in the immediately foreseeable future.

The rendering of services by the service companies of the Shell Group to the Company will be continued as deemed necessary.

The Board of Directors considers that the internal risk management and control system, which is designed to provide reasonable but not absolute assurance of achieving business objectives, is adequate and appropriate. The Company’s specific policies for managing the risks to which it is exposed are explained in full in the Annual Report for the year ended 31 December 2019.

The Company’s operations and earnings are subject to risks such as (although not limited to):

- Changes in legislation and fiscal and regulatory policies: Changes in legislation, taxation (tax rate or policy) and regulation all pose a risk to operations and can affect the operational performance and financial position of the Company.
- Currency fluctuations and exchange control: As part of a global group of companies, changes in currency values and exchange controls could affect the operational performance and financial position of the Company (although the Company’s exposure to this risk is minimised by the back-to-back nature of its debt structures).

SHELL INTERNATIONAL FINANCE B.V.

DIRECTORS' INTERIM REPORT (Continued)

- Trading and Treasury: In the course of normal business activities the Company is subject to trading and treasury risks. These include *inter alia* exposure to and the risk of counterparty default, but not interest rate or foreign exchange exposure, due to the back-to-back nature of debt structures in the Company.

Within the Shell Group a single overall control framework is in place, which is designed to manage rather than eliminate the risk of failure to achieve business objectives, and only provides reasonable and not absolute assurance against material misstatement or loss. The Shell Control framework applies to the Company and all wholly owned Shell companies and to those ventures and other companies where Royal Dutch Shell plc, directly or indirectly, has a controlling interest.

The Company, in the normal course of the business, uses financial instruments of various kinds for the purposes of managing economic exposure to currency and interest rate movements. The Company has a treasury policy consistent with the Group Treasury Guidelines. These policies cover financing structure; foreign exchange and interest rate risk management as well as the treasury control framework.

On behalf of
the Board of Directors

SHELL INTERNATIONAL FINANCE B.V.

NOTES TO THE ACCOUNTS FOR THE PERIOD ENDED 30 JUNE 2020

1) GROUP AFFILIATION AND PRINCIPAL ACTIVITIES

The Company has its statutory seat in The Hague. The Company is one of the companies of the Shell Group. The term “Companies of the Shell Group” (“Group companies”) means companies in which Royal Dutch Shell plc, based in The Hague, The Netherlands, either directly or indirectly, has control either through a majority of the voting rights or the right to exercise a controlling influence or to obtain the majority of the benefits and be exposed to the majority of the risks. The financial information of the Company has been consolidated in the financial information of Royal Dutch Shell plc. Royal Dutch Shell plc, a company incorporated in England and Wales, is known as the “Ultimate Parent Company” of the Shell Group.

The shares of the Company are held by Royal Dutch Shell plc.

The Company’s principal activity is to acquire funds by contracting public or private loans or otherwise and to make such funds available in whatever form, to companies and enterprises in which companies of the Royal Dutch Shell Group have a direct or indirect participation. The Group is engaged worldwide in all the principal aspects of the oil and natural gas industry. The Group also has interests in chemicals and alternative energy.

2) BASIS OF PRESENTATION

This condensed Interim Financial Report for the six months ended 30 June 2020 has been prepared in accordance with the Disclosure and Transparency Rules of the European Union and with guidance from IAS 34, ‘Interim financial reporting’ as adopted by the European Union.

The condensed Interim Financial Report should be read in conjunction with the Annual Report for the year ended 31 December 2019. The Annual Report and the Interim Financial Report were prepared in accordance with accounting principles generally accepted in the Netherlands and are in compliance with the provisions of the Netherlands Civil Code, Book 2, Title 9.

The Annual Report for the year ended 31 December 2019 was approved by the Board of Directors on 14 April 2020 and filed with the UK Listing Authority. The report of the auditors on those accounts was unqualified and did not contain an emphasis of matter paragraph.

This condensed Interim Financial Report has not been reviewed or audited by the Company’s external auditors.

3) ACCOUNTING POLICIES

Except as described below, the accounting policies applied are consistent with those of the Annual Report for the year ended 31 December 2019, as described in the Annual Report.

SHELL INTERNATIONAL FINANCE B.V.**NOTES TO THE ACCOUNTS FOR THE PERIOD ENDED 30 JUNE 2020 (continued)****4) DEBT SECURITIES PROGRAMME INFORMATION MEMORANDUM**

The Debt Securities Programme Information Memorandum filed with the London Stock Exchange disclosed that as at 30 June 2020, the Company had total debt of US \$65,831 million of which US \$54,448 million was long-term debt due after more than one year.

The true and fair total debt of the Company as at 30 June 2020 is shown in the table below.

SHELL INTERNATIONAL FINANCE B.V.

NOTES TO THE ACCOUNTS FOR THE PERIOD ENDED 30 JUNE 2020 (continued)

6) TAXATION

The effective tax rate for the period is 25.0% (6 months period ended 30 June 2019: 25.0%) in comparison to the nominal corporation tax rate in the Netherlands of 25.0%.

7) EMPLOYEES AND SALARY COSTS

The Company employed no personnel during 2020 or 2019 and therefore incurred no salary or related costs of employment.

8) FINANCIAL INSTRUMENTS

Financial instruments on the Balance Sheet include accounts receivable, other financial fixed assets and current and non-current liabilities. Financial instruments are recognised on the date the underlying transaction occurs.

The Company uses financial instruments to mitigate the following risks:

Currency risk: Based on a risk analysis, the Board of Directors has determined that any individual activities, over EUR 5.0 million, are generally economically hedged by foreign exchange derivatives, further information is provided in Note 1 of 2019 Annual Report.

Interest rate risk: The Company is exposed to interest rate risk on interest-bearing receivables (mainly taken up in financial fixed assets, securities and cash at bank and in hand), interest-bearing long-term and current liabilities (including loans to credit institutions).

The Company is exposed to the variability in cash flows of variable interest rates on receivables and liabilities. In relation to fixed interest receivables and liabilities, it is exposed to the fair value of the receivables and liabilities.

Exposure to currency and interest rate risk is deemed to be low due to the back-to-back nature of the Company's lending arrangements.

Credit risk

The Company on-lends funds generated from bond issuance to Group companies, all of significant size and importance within the Shell Group. These companies have a long and proven track record of being reliable creditors, and their suitability for future credit is monitored on an ongoing basis.

The Company has procedures and policies in place to limit the amount of interest, currency and credit exposure to any counterparty or market. These procedures limit the Company's exposure to concentrations of these risks.

In the event of a counterparty defaulting on payments due to the Company the resulting losses, if any, would be limited to the fair values of the instruments on which the default occurred.

The contract/notional amounts of the financial instruments outstanding give an indication of the extent that these financial instruments are used but not of the exposure to credit or market risk.

SHELL INTERNATIONAL FINANCE B.V.

9) CONTINGENT LIABILITIES

For the assessment of Netherlands income tax, the Company, together with Royal Dutch Shell plc and most of its subsidiaries established in the Netherlands, forms part of a fiscal unity. Pursuant to the applicable legal stipulations, each company is jointly and severally liable for the income tax to be paid by the companies involved in the fiscal unity.

10) RELATED PARTY TRANSACTIONS

All the Company's income arises from dealings with other Group companies or Associated companies. The Company does not have direct dealings with non-related parties except to the extent of its financing related transactions.

11) SEASONALITY

The results of the Company are not subject to seasonal fluctuations.

12) SUBSEQUENT EVENTS

After the balance sheet date, macro-economic uncertainty and a decrease in interest rates continues to occur. This would result in lower interest pay out for floating rate debts. However, the Company does not foresee an impact in its annual accounts as all debts are back-to-back in nature.

SHELL INTERNATIONAL FINANCE B.V.
