

Shell Trinidad and Tobago Limited

Strategic report for the year ended 31 December 2020 (continued)

Section 172(1) statement/Statement of stakeholder interests

The Companies (Miscellaneous Reporting) Regulations 2018 ('2018 MRR') require Directors to explain how they considered the interests of key stakeholders and the broader matters set out in section 172(1) (a) to (f) of the Companies Act 2006 ('S172') when performing their duty to promote the success of the Company under S172. This includes considering the interest of other stakeholders which may affect the long-term success of the company.

This Section 172 Statement, explains how the Directors have acted in the way they consider, in good faith, would most likely promote the success of the Company for the benefit of its members as a whole, and in doing so have regard (among other matters) to:

- the likely consequences of any decision in the long term and the impact of the Company's operations on the community and the environment,
- the desirability of the Company maintaining a reputation for high standards of business conduct; and
- employee interests, the need to foster the Company's business relationships with suppliers, customers, and others, and the effect of that regard, including on the principal decisions taken by the Company during the financial year.

Ahead of matters being put to the Company Board for consideration, significant levels of engagement are often undertaken by the broader business ahead of many of Shell projects or activities. This engagement is often governed by formulated policies, control frameworks, regulation, legislation and may differ by region. Dependent on the project or activity, Board members may participate in this engagement.

The Company is a member of the Shell Group, an organisation which follows a highly developed and formalised governance and oversight framework, which includes but is not limited to Group policies such as the Shell General Business Principles (which sets out the Shell Group's responsibilities to shareholders, customers, employees, business partners and society) and the Shell Code of Conduct.

The strategy of the Company is considered to be derived from those of the Shell Group, which is discussed on pages 18 - 21 of the Royal Dutch Shell plc 2020 Annual Report. The Shell Group internally organises its activities principally along business and function lines but transacts its business through legal entities. This organisation structure is designed to achieve Shell's overall business objectives, whilst respecting the separate legal identity of the individual Shell companies through which it is implemented and the independence of each legal entity's Board of Directors.

PRINCIPAL DECISIONS

We define Principal decisions taken by the Board as those decisions in 2020, that are of a strategic nature and/or that are significant to any of our key stakeholder groups.

To remain concise, we have categorised our key stakeholders into seven groups. Where appropriate, each group is considered to include both current and potential stakeholders.

Principal Decisions in 2020

In the table below we outline some of the principal decisions made by the Board over the year, explain how the Directors have engaged with, or in relation to, the different key stakeholder groups and how stakeholder interests were considered over the course of decision-making.

The level of information disclosed on principal decisions in the table below is consistent with the size and the complexity of the business.

How were stakeholders considered

We describe how stakeholders were considered during the decision-making process by summarising the relevant discussions. The relevance of each stakeholder group's interests may differ depending on the nature of decisions being considered. Board decisions will not necessarily result in a positive outcome for all of our stakeholders, but by considering our purpose, values and business objectives, and having due regard for stakeholder relationships, the Board aims to ensure that its decisions promote the long-term success of the Company.

What was the outcome

See the table below.

Investing in New business and acquisition

Over the course of the year, the Board considered potential investment opportunities as they arose and reviewed investment requests in respect of ongoing projects.

How were stakeholders considered

The Board examined expenditure requests and the impact of this on the Company's success in the longer term. Future value growth opportunities were balanced against any impact to budget and on any possible effects on the Company's various stakeholders. For example, with proposed equity injections, the creation of additional share capital which would reduce possible debt financing for stakeholders was considered.

Outcome

The Board provided its support to long-term projects by citing reference to the Company's purpose and strategy.

Equity Injections were made in connection with existing Group projects and which had been approved in accordance with the Shell Group's organisational structure and control framework.

Approved by the Board on Dec 15, 2021
