Shell is the co-title sponsor of the HYUNDAI SHELL MOBIS WORLD RALLY TEAM.

Shell Helix Ultra 0W engine oil helps the Hyundai Shell Mobis World Rally Team perform in all environments and temperatures, ranging from -40°C external temperature up to 1,000°C engine temperature.

It is this same spirit of innovation and partnership that has made SHELL HELIX ULTRA 0W WITH PUREPLUS TECHNOLOGY, which uses a revolutionary gas-to-liquid process to convert natural gas into 99.5% CRYSTAL-CLEAR BASE OIL, the service fill choice for Hyundai road cars all around the world.

Whether it's ICE, SNOW, DIRT, ASPHALT OR GRAVEL, Shell Helix Ultra 0W engine oil helps the Hyundai Shell Mobis World Rally Team perform in all environments and temperatures, ranging from -40°C external temperature up to 1,000°C engine temperature.

Through using a lower/optimised viscosity engine oil, the engine gains multiple benefits that includes:

- overall better ENGINE EFFICIENCY
- LOWER FRICTION inside the engine
- more efficient FUEL CONSUMPTION and LESS WEAR

It is this same spirit of innovation and partnership that has made SHELL HELIX ULTRA 0W WITH PUREPLUS TECHNOLOGY, which uses a revolutionary gas-to-liquid process to convert natural gas into 99.5% CRYSTAL-CLEAR BASE OIL, the service fill choice for Hyundai road cars all around the world.

HYUNDAI SHELL MOBIS WORLD RALLY TEAM CHOOSES SHELL HELIX ULTRA DESIGNED FOR ULTIMATE ENGINE PERFORMANCE

1. Protects engine parts at extreme high temperatures up to 1,000°C.
2. Based on paraffinic hydrocarbon content and significantly higher level of iso-paraffins compared to typical Group II & III base oils.
